

# Les jeux Modul'Air

DESIGN **UNIQUE** PLAYSETS.  
REINVENT PLAYING.

## OUR DISTINCTION

**DESIGNED EXPRESSLY FOR CHILDREN. CREATED BY VERY PASSIONATE PEOPLE.**

### WHITE CEDAR

**White cedar. A natural way to do better.**

Over 20 years. This is indeed the natural useful life of white cedar with which we build our playsets. This soft wood species, without sprinters and highly resistant, defends itself naturally against mildew and insects. No chemical treatment. No metal treatment. Only quality and resistance. Conclusion: safe playsets, healthy for the environment and your children. Playsets that will grow along with them.

### RUGGED CONSTRUCTION

Designed for your « Featherweights ». Robust enough for the « Heavyweights ».

We build on solid ground. Numerous beams, 4 X 4 corner braces, 4 X 4 posts, white cedar resistant to everything, use of glue-laminated wood, a manufacturing technique of wooden pieces which has proven itself, bolts and nuts plated with highly resistant zinc... No small pieces. No slats. No half-measures. Only robust and durable materials. Including the « navy » type canvas, fully resistant. Moreover, our playsets are self-supporting; they don't need to be anchored in the ground and may be relocated and even moved. Ingenious. Unique.

### A QUEBEC PRODUCT

**Created by us. Designed for you.**

Our creations are 100% made in Quebec. We are people from Quebec. A net advantage since we can create customized models. Plus: a better quality control, the use of materials known for their reliability, and an after-sale service highly personalized. That is how we do business. That is how, also, we create jobs at home.

### DURABLE

**Entertain children for a long time. A very long time.**

Momentary pleasure? Not part of our strategy. Our playsets are made to last. Made of white cedar, a wood species well-known to resist all kinds of weather and insect damages. Assembled according to techniques ensuring the stability of the installations with high quality hardware, the playsets will amuse children as long as they want to.

### SAFETY

**Unwavering Commitment to Safety for all your kids.**

We do know safety standards. Our playsets are always built having the safety of your children in mind. All our structures are designed so that no children will fall or get caught. The safety of the children and the peace of mind of the parents are a must at Les Jeux Modul'Air. Playing is a serious matter for us.

### CUSTOMIZED DESIGN

**Designed by very passionate people. Tested by kids.**

In the beginning, there was a father who wanted to offer his children a quality playset. Then he wished to see them have fun, year after year. This is the foundation on which Les Jeux Modul'Air was built. Today, Les Jeux Modul'Air playsets are designed for all kinds of spaces with various uses. Single family homes, camping sites, camps, private properties, orchards or other types of business, small municipalities, suburbs or remote areas... we propose personalized models to meet all needs in addition to really amusing accessories: Les Jeux Modul'Air is a world of possibilities.

### EVOLUTION

**Today's family is evolving. So are our playsets.**

The family is becoming larger. The children are growing up. The addition of a tower, the replacement of a toddler swing to a tire swing, the installation of a turbo slide, the addition of some beams to allow new possibilities, increase the difficulty level and renew the pleasure. This is a matter of making your set cost effective.

### LEGEND :

Total number of children who could play on the outdoor playset, depending on the options chosen.

## THE SWING

2 to 4, depending on options

A playset that will make your kids happy. From the toddler swing to the classical swing, and the tire; the swing is a must for everyone, small ones and grown-ups. With its monkey bars, this set will please the more active children. This structure doesn't take much space and it blends easily into your background.

### INCLUDES SPECIFICATIONS

## **GARANTIES**

### **ACCESSORIES**

Les jeux Modul'Air guarantees the playset accessories for a period of one year from the date of delivery. Reimbursements must be done within 10 days following date of receipt of merchandise and it has to be in its original packaging. Return charges are at the expense of the buyer.

### **RESIDENTIAL PLAYSETS**

The playset structure made of white cedar is guaranteed for a period of 5 years against major decay, manufacturing defect and/or normal wear and tear. The guaranty covers the playset for residential use and it is not valid if the playset has been damaged somehow by major adverse weather (thunderbolt, fire, and high wind), vandalism or an inadequate installation. The guaranty against decay is not valid is there is sign of obvious lack of maintenance. We recommend that you inspect the set on an annual basis and that you use epoxy paste to repair the affected spots as soon as they appear to avoid major degradation of the wood. The playset accessories are guaranteed for a period of one year for residential use.

### **COMMERCIAL PLAYSETS**

The playset structure made of white cedar are guaranteed for a period of 5 years against major decay; no other types of guaranty are applicable. The guaranty against decay is not valid is there is sign of obvious lack of maintenance. We recommend that you inspect the set on an annual basis and that you use epoxy paste to repair the affected spots as soon as they appear to avoid major degradation of the wood. Only the commercial grade accessories are guaranteed for 1 year, all other noncommercial accessories do not carry any guaranty.

**The applicable guaranties are not transferable in anyway.**
